

INTERX1000

INTERACTIVELY SIMPLE

Through applications that are both simple and easy to perform, you can now access unique interactive neurostimulation to effectively treat a range of injuries, as well as more general aches and pains.

Conveniently designed and completely portable, the InterX 1000 is a safe and effective, non-drug, pain management device for people everywhere.

"Walking without pain and returning to a natural gait has lifted my spirits. Once again, I can look forward to a great day!"

Pamela Graham
Former nurse and avid golfer

INTERX[®] 1000

A simple, effective solution for the personal treatment and management of pain

"InterX Therapy gave me back the most important things in my life. In fact, it gave me my life back."

Linsey Heidelberg
Chronic Pain Sufferer

In the US and in Canada, InterX products require a prescription from a licensed health care practitioner.

Contact NRG directly or your local distributor to discover how your patients can benefit from non-drug, non-invasive pain relief with the InterX 1000.

"The InterX relieved my pain and I felt energized following the treatment. I really feel terrific and I am able to function normally. More importantly, I can play with my great-grandchildren again!"

Carol Click

On her recovery from a rotator cuff injury

SIMPLE TO USE, DYNAMICALLY DIFFERENT

FLEXIBLE TREATMENT OPTIONS

The InterX 1000 provides a non-drug alternative for the effective management of pain. Whether you have a general ache or pain, or suffer from an ongoing injury, the InterX 1000 allows safe and effective treatment with the push of a button.

Unlike some pain management products, the InterX 1000 does not simply block pain; patient experience suggests a prolonged effect that may last beyond the initial treatment.

Available as a home use product for individual use, or as a support during treatment with other therapies or the InterX professional model, the InterX 1000 is a valuable resource for pain management.

The InterX is 510(k) cleared by the U.S. FDA for pain relief and pain management and carries the European CE mark.

EFFECTIVE TREATMENT SOLUTIONS

The InterX 1000 provides simple and effective treatment applications for conditions that may include:*

- Pain from injury (e.g. bruise, sprain or strain)
- Aggravated joint pain
- General aches and pains
- Chronic back and neck conditions
- Osteoarthritis

** Certain complex conditions may require a course of professional treatments before home use is recommended. Ask your doctor or therapist for more details.*

THE INTERX® 1000 AT A GLANCE:

- 5 easy to access treatment settings
- Simple treatment programs that range from 5 to 30 minutes
- Fully portable
- Light weight, travel-friendly design
- Comprehensive, easy to understand user manual
- Convenient and safe alternative for pain management

"InterX Therapy is non-invasive, easy to use and gets results."

Dr. Gerhard Maale
Orthopedic Oncologist

ACCESSORY ELECTRODES

A range of accessory electrodes are available to expand the capability and flexibility of your InterX 1000. Accessory electrode options include:

InterX Dome Electrode – provides larger electrode coverage to enhance the treatment of larger muscular areas, for example, the thighs, shoulders or back.

InterX Comb Electrode – designed to treat the scalp and other areas of the body where hair may interfere with electrode contact.

InterX Flexible Array™ Electrode – designed specifically for those hard to reach areas, such as the shoulders or back. 10 minute treatment programs allow for unattended, hands-free treatment options; the Flexible Array can also be used on the legs and arms.
