

ITINERARY for ADVANCED TRAINING

10:00 Morning session

Introduction; Overview

Feedback on the use of the InterX: success and challenges

Theory Introduction: Complex chronic pain and its impact on the patient

Theory Introduction: Assessment ability of the InterX and rationale behind in taking readings.

10:45am SHORT BREAK: (approx. 10 minutes)

Preparation for the assessment: Patient preparation and intake forms

Assessment protocol

Start up – Step 1 and Step 2

Scan for the Active Sites: Step 3

Target – Step 4

Trigeminal Points – Step 5

Live PRACTICE – all 'Steps' - Group Practising, working in pairs

11:30am SHORT BREAK: (approx. 10 minutes)

Theory: Treatment Planning based on the Assessment

Subjective and Objective

Plan for Session 1 through 4

1:00pm LUNCH BREAK: (approx. 1 hour)

2:00pm Afternoon session

Theory –Active Sites – deeper view

Theory –Paraspinal Sites

Theory – Homeostatic Sites

Prognostic Quantitative evaluation Technique

Treatment Protocol for treating HS's

Live PRACTICE –Quantitative Evaluation technique- Group practising, working in pairs

2:40pm SHORT BREAK: (approx. 10 minutes)

Theory: Anatomy of the HS's

Demo of HS's

Practising on each other finding HS's

Sample cases - discussion

Various combination of use of the HS's treatment protocols

3:30pm SHORT BREAK: (approx. 5 minutes)

Theory: Clinical Cases: sample cases - discussion

Demonstration of "The Assessment protocol with the patient" (1)

Demo treatment of the complex chronic pain/complex neuropathic pain (2)

Treatment planning with the demo cases

Case study guidelines

Written Assessment

4:45pm Closing Questions and Certification
